Sharmila Kraft presented AP10 Textbooks – Elementary ELA Adoption 2015-2017 Process. Member Smithfield mentioned that it was brought to her attention that teachers are ready to switch to new program and that kinder level starts back at first letter. They are not able to give it a fair shake if they have National Geographic as their second one. Dr. Kraft said that she will look into it. Member Herrera said that we cannot adopt a program when such small numbers piloted the program. If we can't find teachers to pilot the program, a small number of people cannot make a decision. If we do not have teachers participating, how are we going to get all of the teachers to use them? Who decided on these two programs? Kraft said that with the Vista Teachers Association, they created a committee. Lower participation than expected. Dr. Vodicka said that he hears that there is concern. When the time comes for us to give a recommendation to the Board, we want them to feel that it is inclusive. Member Herrera said that if teachers do not have buy-in, they will not use it. At least one teacher at each grade level needs to be involved. Member Smithfield mentioned the pilot process. You could only pilot if your entire grade level wanted to pilot. There are many experienced teachers in our district that are not involved. Kraft is open to ideas on how we can bring on more teachers. Member Alderson said that we are in a position that we need to get more people to participate. Can we offer some compensation for the teachers to participate after hours? Member Alderson asked how many teachers voted. State Board recommended programs presented. Teachers selected. Kraft said approximately 60 teachers. Representation from every grade level. Matt Steitz presented AP11 Next Generation Science Standards, Challenges and Next Steps. Member Herrera asked if a second grade teacher knows what she should be teaching. Does she have the materials needed? Dr. Steitz said that we are collecting that information right now. Will teacher have staff development opportunities? Dr. Steitz said that is the purpose of the Academy. Do we have an assessment tied to this? Dr. Steitz said that we are giving feedback to NGSS. We will field test the assessment. Member Smithfield said that she participated in professional development day and it was very good, all teachers benefited from it.
